

ECLIPSE SPORT SUPPLEMENTS

Deluxe Burners Chitosan

In Today's Market of Weight Loss and Thermogenic Supplements, Eclipse is Leading the Way with New and Innovative Formulations

Eclipse offers three formulas, which includes Deluxe Burners, Chitosan, and the new 2nd generation repartitioning agent Deluxe Thermogenix™. These formulas are individually designed to perform specific metabolic functions, which consist of fat burning, appetite suppressing, muscle sparing and absorptive fat blocking.

Chitosan, which is the deacetylated form of chitin, is derived from the shells of crustaceans. This unique compound contains a strong positive charge, which causes it to bind to negatively charged substances such as fats. Chitin supplementation in animal studies has been shown to bind to fat in the intestine, thus blocking absorption and helping maintain healthy cholesterol levels.¹ * This supplement may provide a caloric decrease via its fat blocking properties which may result in weight loss.

Eclipse Deluxe Burners consists of Super Citrimax, L-Carnitine, Capsicum, Caffeine, Chitosan, and Chromium Picolinate. Citrimax or hydroxy citric acid (HCA) has been theorized to suppress appetite and block the conversion of excess carbs to fats.²

L-carnitine is found in the mitochondria of the cell and carries the fats across the membrane to be used as fuel.³ Capsicum, a derivative of red pepper may help heat things up and add to the thermogenic effect. Caffeine has been shown to liberate fatty acids to be used as fuel.⁴ Chitosan may help block the intestinal absorption of fatty acids. Finally, Chromium Picolinate may help burn fat via its insulin mimetic properties.⁵

In summary, Deluxe burners take a comprehensive approach to fat loss by utilizing several different types of compounds. Eclipse Deluxe Thermogenix™ can be found in detail on a separate fact sheet. Eclipse offers several other technical facts sheets in order to provide its customers with latest scientific research.

Label Copy Deluxe Burners

Active Ingredients: Each capsule contains 500mg. Super CitriMax™; 250mg. Chitosan; 200 mg. L-Carnitine; 100 mg. Capsicum; 75 mg. Caffeine; 200 mcg. Chromium Picolinate per 3 capsules.

Super CitriMax is a trademark of Inter Health, N.J.

Suggested Use: As a dietary supplement, take 1 capsule 3 times daily with meals.

Label Copy Chitosan

Serving Size: 3 Capsules

Contains: Each capsule contains 1500mg. Chitosan.

Suggested Use: As a dietary supplement, take 3 capsules daily, 1 capsule with with 8 oz. of water prior to each meal.
